The Big Steamship War at New Orleans on.

The Big Pittsburgh Coal Companies Form a Combination.

SUICIDES AT KNOXVILLE

8,000 MEN STRIKE.

New Orleans, Sept. 5.—The struggle for supremacy between the steamship lines entering the port of New Orleans and the longshoremen, stevedores, and freight handlers' unions began yesterday when practically every union on the river front was locked out, and between 7,000 and 8,000 men are idle.

How long the struggle will continue and which side will ultimately triumph time alone will tell. When the steamship agents delivered their ultimatum to the unions they declared they had been forced to take the step by the arrogance of the unions, and that they were prepared to enter into a fight which would end in crushing all of the unions on the levees. The bold stand taken by the steamship lines had an important effect.

GOVERNOR OPENS CAMPAIGN.

Winchester, Ky., Sept. 5.—Three thousand were in the big tent when Governor Beckham began his opening speech at noon. His intention was to speak in the open air, but rain began falling at 11 and drove all to shelter. The governor but repeated his former speeches and no new points were brought out.

Speeches were also made by McCreary, Blackburn and Ollie James.

A BIG COAL COMBINE.

Pittsburg, Sept. 5.—Control of the Monongahela River Consolidated Coal and Coke company has been acquired by the Pittsburg Coal company with a combined capital of \$132,000,000.

DIDN'T WANT TO GO HOME.

Knoxville, Tenn., Sept. 5.—Rather than obey her mother's injunction to return home, wayward Tiny Moore, of Atlanta, Ala., killed herself here last night.

OUR SHIPS ARRIVE.

Washington, Sept. 5.—The navy department has been notified of the arrival at Beirut of the American ships.

POLITICS IN DAVIESS.

Owensboro, Ky., Sept. 5.—The Democrats of the county district today renominated Hon. C. M. Crowe of Whitesville, for representative. The Republicans are holding a convention to name twelve city councilmen and candidates for representative for the city district.

COUNTY FAIR.

WORK DONE ON THE RACE TRACK NOW—SOME CONFUSION.

The work at the fair grounds in preparation for the county fair to be given here next month is progressing satisfactorily, and today work was done on the race track, but very little, as nothing else can be done until it rains.

It seems that some confusion has resulted from the Red Men's Festival and the county fair, both of which are to be given the same week. They are separate and distinct and subscriptions to the county fair will be of no benefit to the Red Men, who are also seeking subscriptions. It is learned that some have contributed to one, thinking it would benefit the other.

LOCATES IN NEW ORLEANS.

Mr. Frank Bondurant, formerly secretary of the wharf boat, has accepted a position at New Orleans and leaves Tuesday for that place to reside. He will represent the New York Life Insurance company, and the Eagle Tool Works, of Cincinnati. He has been a resident of Paducah for several years and has many friends here who will wish him success.

Mr. Frank Fulton went to Dawson today at noon on a short visit.

COULD FREE POWERS

By Disclosing Evidence in His Possession, He Says.

A Big Fire in Owensboro, and in Glasgow, Ky., Last Night.

CAN'T PROTECT FOREIGNERS

COULD SAVE POWERS.

Georgetown, Ky., Sept. 5.—Theo. G. Roach, who has been living in El Paso, seems to have created quite a sensation yesterday in Juarez, Mex., by the statement that ex-Governor Taylor and Caleb Powers would be willing to give \$100,000 for his head, and that he is in possession of papers which, if made public, would clear Caleb Powers and condemn ex-Governor W. S. Taylor.

The only connection of the Roach's with the Powers' case so far as is generally known is that Mrs. Roach was at the last trial, and at the former trials a witness introduced to prove that Caleb Powers, prior to the circumstances which culminated in his arrest, had assumed all responsibility for the bringing to Frankfort of the mountain men. Roach's statement that what he knew would clear Powers and condemn Taylor, is not in keeping with such conditions.

In an interview at the Georgetown jail yesterday Powers said:

"I know nothing about the Roach story. All I have to say is that somebody somewhere has information which if given out would clear me. Somebody killed Mr. Goebel, that we know. If the guilty parties would only come forward and tell the truth I would soon be a free man."

BIG FIRE AT GLASGOW.

Glasgow, Ky., Sept. 5.—Fire at 4 o'clock this morning destroyed the confectionary of Frie and Harritt, damaged Orr and Warder's stock of drugs, J. B. Delvaux's jewelry store and Duff and Hutchins' law office. The total damage will be \$10,000.

OWENSBORO PLANT BURNS.

Owensboro, Sept. 5.—The entire plant of the Southern Foundry company was destroyed by fire at 3 o'clock this morning. The loss is \$25,000, with but \$4,000 insurance.

CANNOT PROTECT LEGATIONS.

London, Sept. 5.—The Turkish government today notifies the powers that the port cannot guarantee the safety of the foreign legations at Constantinople.

LEAKED OUT

Mr. George Prince and Miss Ida Gillman Wed in Cairo.

They Intended to Keep it a Secret, But a Friend Gave It Away.

The marriage of Mr. George M. Prince to Miss Ida Gillman, both of the city, at Cairo September 1st, was announced for the first time today and will come as a pleasant surprise to their many friends.

Mr. Prince is proprietor of the George M. Prince cigar factory on North Fourth street and a young man well known in business and union circles in the city. He is a son of Mr. J. A. Prince, of the I. O., and very popular among his many friends and acquaintances. His bride is a daughter of Officer I. O. Gillman and a popular and attractive young lady.

The marriage was performed by Rev. Porter and was kept a secret until this morning when it leaked out through a friend who had witnessed the ceremony in Cairo. Mr. and Mrs. Prince have gone to housekeeping at the residence of the bride and are at home to their many friends.

Mr. and Mrs. C. H. Vaneter and Mr. and Mrs. C. R. Webb leave this evening for a trip up the Tennessee river.

SOWELL'S MILL THREATENED

Big Southside Lumber Company Damaged This Afternoon.

Fire broke out this afternoon about 1 o'clock in the south lumber yards of the Paducah Veneer and Lumber company, better known as the Sowell mills in Mechanicsburg, and made a stubborn fire that had to be fought at a great disadvantage.

A spark from the chimney of a small mill belonging to the same company and located north of the lumber yards, is supposed to have started the conflagration. The wind came from the north and blew the flames directly against the brick walls of the main mills. The fire departments arrived and began to fight the flames the best they could. The pressure was not heavy so far up, and one of the Central fire engines was brought to the scene to pump water through the hose direct from the plug.

The lumber piles were destroyed rapidly, despite the heroic work of the firemen and volunteer crews and about 2 o'clock the day kiln, located south of the main mill caught fire from flying sparks and the top was a mass of flames when discovered. The firemen transferred the stream to this building and succeeded in extinguishing the flames. Several streams from the mills company's private fire fighting plant were kept constantly on the lumber and prevented the big mill from taking fire.

All belts, veneering and apparatus of every kind possible to move was taken from the mill and many families residing in small houses nearby moved their furniture out.

The mills are valued at many thousands of dollars and both the stock in the yards and the mills are about three-fourths covered by insurance. This is the second time a serious fire has visited this mill.

For a time the firemen and employees of the mill were using dynamite in blowing up the lumber piles to prevent the flames spreading to other parts of the yards. It looked like the main mill would be saved, but many thousands of dollars worth of lumber has been burned and much damage done the machinery of the mills in being removed from the plant.

The firemen had a very hard time fighting the flames from the mills, the heat being so great, and several times had to be relieved on account of being overheated. No prostrations were reported however.

The company was incorporated for \$25,000 in 1893, and Mr. Muscoe Burnett is president and Mr. A. B. Sowell secretary and treasurer.

At press time the fire was still raging, but there were prospects of getting it under control.

WEEK'S NEWS IN THE BUSINESS WORLD

Bank clearings this week \$ 565,514
Same week last year 550,677
Increase 14,837
The same substantial increase in bank clearings shown nearly every week this year is seen again this week, showing Paducah's steadily growing

business prosperity.
The postoffice receipts for the month of August in the local office were \$3,248. The receipts for last month were \$2,686, which shows a steady increase. The receipts for August 1902 were \$3,168. The growth in the postoffice is thus shown to be quite considerable.

IT STATE POLITICS

Hon. John W. Yerkes Coming to Kentucky to Speak.

The Next Governor, Colonel Belknap, Makes a Strong Speech at Barbourville.

DEMOCRATIC CAMPAIGN OPENS

It is announced at Republican state headquarters at Louisville that Internal Revenue Commissioner John W. Yerkes will come to Kentucky on September 16 to make a two weeks' tour of the state in the interest of the Republican ticket. The speaking appointments have not yet been agreed upon.

Judge Clifton J. Pratt, of Madisonville, who was named as the Republican district convention held at Princeton Wednesday, has accepted the nomination.

Colonel W. P. Thorne, Democratic nominee for lieutenant governor, will open the campaign at Hopkinsville next Monday with a speech at Holland's opera house. Judge Thomas P. Cook and James Breathitt, the candidates for circuit judge, will open the district campaign with a joint discussion at Cadiz the same day. Judge Cook was in Paducah today on business.

In his speech at Barbourville Colonel Morris Belknap, Republican candidate for governor, made a stirring address in which he spoke of the necessity for a business administration. He made a good impression.

The Democratic campaign opened at Winchester, Ky., today in the presence of a large crowd.

THE INTEREST LAGS

And K. I. T. League Season May End Sept 15th.

Clubs Are Now Playing to Small Crowds in the League Towns.

PADUCAH'S FUTURE PROSPECT

Tomorrow a meeting of the executive committee of the K. I. T. league will be held here at the Palmer house for the purpose of considering the advisability of cutting the schedule of the league short and quitting for the remainder of the season.

Paducah, according to reports, is the only team clearing expenses and of late the attendance has not been what it should be. The teams are supposed to play until the 29th of September but at the meeting it is possible the league will suspend business for the remainder of the season after September 15. The season opened May 21.

The Cairo and Paducah teams will be held however for the seven exhibition games for the loving cup and these games will undoubtedly draw large attendance. Much interest is being taken in the outcome.

As to Paducah's belonging to a league including the cities in this league next year it is thought probable she will not, as efforts are already being made to get into a larger league. Paducah had the tailend team nearly all the season and yet did better than any of the other clubs. If it is true that the attendance has not paid in the other towns, where they had satisfactory clubs, it would seem that a league composed of the cities in the K. I. T. cannot pay its way out, and none will be organized next season. This, however, is merely a matter of speculation.

Paducah's baseball team probably has more pitchers in the lineup than any other team in the league. Besides the regular staff which is composed of Best, Hudson, Wilson, Doyle and Witt the team has Ray, who pitched fine ball last season; Girard who has done excellent work in the box on several occasions for Paducah and Owensboro; and Potts, who has been a good pitcher for a light player.

The local management is looking about now with the view of resigning men for the coming season. Those who will probably be held are Long, Akers, Potts, Gerard, Wilson, Doyle, Best and Ray. The team has an option after the season closes of 60 days. It is understood that the local management will try to secure Gardner, Henderson's southpaw, for next season if he will sign.

LABOR DAY

Celebration Monday Will be a Big One in Paducah.

It Will Be a General Holiday with Little Business Transacted.

Monday is Labor day, and a legal holiday. It will be festively celebrated in Paducah by a big parade and celebrations at the various parks. There will be little business transacted and everybody will enjoy the festivities.

The banks will all be closed, and most of the manufactories shut down, and the postoffice will be closed Monday except from 9 to 10, and the first mail delivery only will be made.

There will be no sessions of the courts, and the entire day will be largely given over to the laboring people, most of the stores closing at noon.

The newspapers will get out a noon edition and give their employees a holiday for the remainder of the day.

Mr. Charles Laffer, Mrs. J. K. Greer, Mrs. Strong, Miss Peachie Greer and Master Charles Laffer returned today from Smithland after a several days' visit.

LEMLEY FREE AT LAST

Former Brookport Saloon Keeper Granted a Pardon.

Officer Hurley Found a Champion Runner Last Night Who Distanced Everything.

NOTES OF POLICE DOINGS

John Lemley, of Brookport, Ill., and at one time of Paducah, who was sentenced to life imprisonment for the alleged killing of Ben Ladd near that place several years ago, has at last been granted a pardon and has returned to Brookport. He has served several years and was two or three years ago released on parole, but on account of some legal technicality was ordered back. He had been spending his time in Metropolis and Brookport during the court's deliberations in his case, and got on the train and went to the penitentiary at Chester by himself when the decision went against him, remaining there until a few days ago, when a pardon was granted and he stepped out a free man. He is now quite old, but has many friends. The crime for which he was sentenced was one of the most talked of at the time in the history of Massac county. Ladd was supposed to have been assassinated near a church while on his way home. Jealousy over a woman is supposed to have caused it.

Officer Aaron Hurley says he thought he was a good runner until last night. A negro known as "Missy" Robertson, who is just off the chain gang, went to Tenth and Husbands streets and beat up a woman. He almost touched the officer, who was looking for him, as he started away.

Officer Hurley gave chase, but despite the officer's sprinting ability the negro steadily gained on him, and finally an old house cat jumped up in front of the fleeing darkey and flying policeman and started excitedly down the middle of the street, leading the procession by a nose. The negro settled down to a good steady clip and as the cat was being crowded and wouldn't turn out he yelled "scat, scat, get outen my way." He was afraid the streak of feline lightning would block him and cause him to be captured, but the officer says there was no danger at the rate the negro was traveling.

The police have been notified of the probable arrival in Paducah of Mrs. Ollie Ladd, a white woman of Fulton, arrested there on a charge of keeping a disorderly house. It is thought she came here with a man from Fulton, but the police have not found her. She was given two days in which to leave Fulton and got out ahead of time. She sold her house for \$150, and left four children, one sick, in a very destitute condition, according to the report received here.

Jim Combs, a colored tie carrier, was arrested this morning by Officers Harland and Woods on suspicion of having stolen a yearling which he sold to a man in the city. The officers have every reason to believe the yearling was stolen and are trying to locate the owner. A description is as follows: White ring on hind legs, white ring on left fore leg, white belly, white spot on forehead.

You don't hear the police talking much politics now, because they don't know which way the cat is going to jump. A number of the boys are candidates themselves for some office, and the others seem to be content with attending to their police work and let the other fellows do the politics stunt.

B. T. Settles, of Tyler, south of the city, has reported to the police the loss of two horses which were stolen from him a night or two ago. They have heard nothing of any missing horses however, except the ones already identified.

"Box Car" Glore, who killed Calvin Carey several days ago on lower Court street, is still at large and the police have no idea of which way he went.

Beautiful Thoughts

The sweet, pure breath of the babe is suggestive of innocence and health.

A mother's yearning for children is inseparable from a love of the beautiful, and it behooves every woman to bring the sweetest and best influence to bear on the subject of her maternity.

To relieve pain and make easy that period when life is born again,

Mother's Friend

is popularly used. It is a liniment easily administered and for external use only.

Pregnant women should try this remedy, it being undeniably a friend to her during nature's term of suspense and anticipation.

Mother's Friend, if used throughout gestation, will soften the breasts, thereby preventing cracked and sore nipples. All muscles straining with the burden will relax, become supple and elastic from its continued application.

All fibres in the abdominal region will respond readily to the expanding cover containing the embryo if Mother's Friend is applied externally during pregnancy.

SCHEDULE FOR TODAY.

Henderson at Paducah.

Jackson at Cairo.

Hopkinsville at Clarksville.

The standing of the clubs have been revised to conform to the official figures given out by the league secretary.

ALMOST SHUT OUT.

Cairo, Sept. 5—Yesterday's game was easy for the locals.

Jackson, 1 2 4; Cairo, 12 12 3

Batteries: Millett, Sherman and Pettit; Wagoner and Rutledge. Gaston, of Jackson, was fined five dollars and benched for abusing Umpire Mitchell.

Millett's hand hurt, causing him to retire from the game.

A TEN INNING GAME.

Clarksville, Sept. 5—Yesterday's game was hotly contested requiring ten innings.

Clarksville, 9 17 7

Hopkinsville, 8 13 7

Batteries: Betts and Weathers; Myatt and Street.

Those who went out yesterday afternoon to see Paducah beat Henderson saw a rather slow exhibition. Paducah's new catcher, Meredith, did back stop work for the Indians, and Edmunds, Paducah's former catcher, who was loaned to Henderson, was behind the bat for the visitors.

Witt, the former Cairo pitcher was in the box for Paducah and Cox and Christian for the visitors.

If the teams do not ginger up the league officials might as well end the season as soon as possible. It seems evident that Cairo and Clarksville are the only ones in the race for the pennant now, and the other clubs do not appear to care how they play. This may not be true, but it certainly looks that way.

YESTERDAY'S MAYFIELD GAME.

One of the best amateur games ever played in West Kentucky was played yesterday by the L. A. L. team of Paducah, and the team of Mayfield at that city. The score stood 0 to 0 in the last of the ninth inning and in the tenth one of the Mayfield sluggers lined a high hit over center fielder's

head and brought in a base runner winning the game. "Dutch" Dicke pitched for the L. A. L. boys and Eddie Brahic caught. Doremus and Warren acted as battery for the Mayfield team. Four hits were allowed off Dicke with no errors. The Mayfield pitcher allowed about the same number of hits with three errors, the errors not counting however, having been made at times not critical.

Catcher Charles Warner, who was released by Jake Zimbro, manager of the Henderson team, will go to Henderson tonight and from there probably to Baltimore, Md., his home. He has caught over 125 games for Henderson, counting the exhibition games and has been off duty but once and this was for three games, Warner playing in the field during that time.

Potts wants to pitch a game and thinks he can win out if permitted to do so. He has speed and good curves and the management is thinking seriously of letting him go in for a game.

Best will pitch for Paducah this afternoon and Meredith will catch. Meredith is a good catcher and did good work with the stick yesterday.

Cox and Edmunds will be the battery for today for Henderson.

Misses Ira and Mabel Berry have returned from Metropolis accompanied by Miss Orpha Benjamin.

WILL DEFEND EDITOR.

HENDRICK & MILLER TO REPRESENT HERALD MEN AT SMITHLAND.

The cases against Mr. Young E. Allison, editor, and George Riley, Frankfort correspondent of the Louisville Herald, for the alleged criminal libeling of Prof. H. V. McChesney, superintendent of public instruction of the state and Democratic nominee for secretary of state, come up at Smithland Tuesday, and Hendrick & Miller, of Paducah, are to assist in the defense.

Prof. McChesney based his charges on a publication in the Herald claiming that he went about the state working for his political interests and incidentally pretending to look after the duties of his office, and drawing his traveling expenses from the state funds all the time.

Instead of instituting the prosecution in Frankfort or Louisville, Prof. McChesney went to Smithland, his former home to do it. It is probable the Paducah attorneys will be assisted by Louisville lawyers. Mr. Bernard Flexner, one of the most prominent attorneys there, was here yesterday to arrange for the services of Attorneys Hendrick & Miller.

CLARKSVILLE BRIDGE.

TEMPORARILY CLOSED ON ACCOUNT OF LOUISVILLE AND NASHVILLE WORK.

Clarksville, Tenn., Sept. 4—The Cumberland river has now been closed to navigation at this point, so that work may be done on the new span to the Louisville and Nashville bridge at this place. This work will consume about six weeks. Owing to the low stage of the river the boats cannot run anyhow, so that river traffic will not be damaged.

THE FOX AND THE BRAMBLE.

Find Another Fox.

A Fox, hotly pursued by the hounds, jumped through a hedge, and his feet were badly torn by a Bramble that grew in the midst. He fell to licking his paws, with many a curse against the Bramble for its unkind treatment.

"Softly, softly! good words, if you please, Master Reynard," said the Bramble. "I thought you knew better than to lay hold of one whose nature it is to lay hold of others."

IS YOUR FACE CLEAN?

This is a question which the average woman would meet with a haughty look. Yet nine times out of ten it would prove more than pertinent. The girl who uses gallons of water daily for washing purposes and who scrubs most diligently with soap will be surprised how much cleaner her skin could really get. A bit of cold cream will show her whether her face is clean or not.

Rubbed softly into the face with the tips of the fingers, the cold cream will take up every atom of dust or soot from the skin, and with a soft cloth gently wipe the face over and over. Then have a look at the cloth. You will be amazed to see how grimy it is, realizing that your face had not the proper sort of a bath, despite soap and water freely used. Therefore the most pertinent question, is your face clean?

TEXAS FEVER RAGES

State Veterinarian Eisenman Finds it This Section.

Cattle in Carlisle County Will Be Placed in Quarantine at Once.

THE LAWS ARE INADEQUATE

Dr. F. T. Eisenman, state veterinarian, has been in this section of state for several days investigating the condition of cattle and at Arlington, Carlisle county, found several cases of Texas fever.

There have been fourteen cases of the disease in that vicinity, all of which proved fatal. The farmers who have suffered losses from the disease are: R. H. Brown, who lost seven head of cattle; L. D. Owen, one; C. V. Halsell, one; T. G. Edwards, two; J. U. McKendall, one; F. S. Phipps, one; T. N. Holt, one. Dr. Eisenman held a postmortem examination over a cow belonging to Mr. Phipps that had died of the disease and found in it all the characteristics of Texas fever.

The disease, it is said, was brought into the state from Mississippi. J. A. Jones, of Arlington, brought two herds of cattle from Mississippi to Arlington seven weeks ago and placed them in a lot at that place. Two or three weeks later other cattle were put in the same lot. Of this herd two died of Texas fever. The Southern cattle harboring the Texas fever ticks are immune. When the tick drops off the young ticks are hatched, and these are in reality the carriers of the infection.

There are a number of cattle in Carlisle county that have been exposed to the disease. These will be quarantined. The quarantine is under the direction of Judge A. T. Hobbs, judge of the county court, and is under the supervision of Dr. John R. Owens, health officer of Carlisle county.

Dr. Eisenman made the examination at the suggestion of Dr. J. N. McCormick, secretary of the state board of health. This is the first report by the state authorities of Texas fever among cattle in the state within the past two years. A federal inspector made a report of Texas fever some time ago in Pulaski, Clinton and Wayne counties, and established a quarantine which is still in effect.

Some of the infected cattle in Carlisle county have gone to Hickman county. The authorities there have been notified to locate and quarantine them.

Dr. Eisenman says that the laws of Kentucky are inadequate in the matter of prevention of the spread of contagious diseases among livestock. In cases where the state laws on this subject are lax the government authorities usually interfere and establish a quarantine under the provisions of the federal laws.

CROUP.

Usually begins with the symptoms of a common cold; there is chilliness, sneezing, sore throat, hot skin, quick pulse, hoarseness and impeded respiration. Give frequent small doses of Ballard's Horehound Syrup, the child will cry for it, and at the first sign of a croupy cough, apply frequently Ballard's Snow Linctament externally to the throat. 50c at DuBois, Kolb and Co.

SMALL AMOUNTS

WILL BE ACCEPTED FROM AGRICULTURAL DISTRICTS.

Chicago Sept. 4.—Secretary Shaw has made the following statement: "I notice some newspaper accounts to the effect that I am about to increase deposits of public money to the extent of \$40,000,000. It is true I have \$40,000,000 available for deposits if conditions should hereafter render it expedient to make so large an increase. For the present I am accepting only applications for small amounts that have been on file for several months and am confining these to agricultural districts."

RAISED FROM THE DEAD.

C. W. Landis, "Porter" for the Oriental Hotel, Chanute, Kan., says: "I know what it was to suffer with neuralgia, dead I did, and I got a bottle of Ballard's Snow Linctament and I was 'raised from the dead.' I tried to get some more, but before I could

DAILY THOUGHT. *

We help others to be good by expecting them to be good.

A BUSINESS ADMINISTRATION NEEDED

Colonel Belknap talked as one business man to another, and gave utterance to some striking truths which are sure to commend him to the thinking people of the state, who have the welfare of the state at heart and have witnessed enough Democratic misrule to know just what to expect from the Democrats.

Some of the clear, vigorous statements made by Colonel Belknap should especially be heeded by the good people of the state. He makes the point that he is not a politician and does not need a job, and does not believe a merchants used to believe, that they could sell the prices

"I have met during my brief campaign a sufficient number of the stronger conservative element of our state to realize that they are with me. It is this which I have termed the new Kentucky spirit in the 'old Kentucky home.' It establishes the important fact that the necessary conditions for our new birth exist, and I beg of you that you arise and acquaint yourselves like men—not for my sake—but for your own sakes.

"I am not in the position of an office seeker, for I already have a job, and it is not a small one. I am simply ambitious (as I think any true Kentuckian may be), to gain such honor as may come from serving my state along the honest commercial lines of supply and demand.

"I claim there is a demand for an administration of our public affairs as a man would manage his private business. I am familiar with the requirements of such a demand, and am not afraid of the responsibility and the work that it entails.

"Too other hands are passing opportunities which we might just as well grasp as not. They mean days of great prosperity and comfort to our families. They mean peace and justice within our borders. They mean overcoming evil with good and doing the fair thing by our fellowman. It is not one man's work, but the work of us all.

"It is an old commercial saw that 'goods well bought are half sold.' When we pay taxes we are supposed to buy government. If we don't get value received for our taxes the bargain is against us, and we will go broke just as surely as the merchant who pays too much for his goods will eventually close his doors.

"We must take out our pencils and figure up the amount of taxes we have to pay, and then in the next column add up what we get for them. If we find that for our heard earned dollars we are simply feeding a lot of grafters when our state is crying for better buildings, better schools and better institutions, then the buying proposition is going against us, and the day of trouble is at hand."

We are not defenders of the toy pistol, but the fact asserts itself from a perusal of the report of arrests made during the fiscal year just ended at Louisville, that instead of passing laws against the toy pistol in the metropolis, a more rigid enforcement of the law applying to the real thing would be in order. There are too many "sure enough" pistols used there, despite the law. If they can't enforce the law against carrying real pistols, how can they expect to enforce one against selling or having toy pistols, whose deadly caps produce lockjaw? Here is how the pistol has figured in Louisville during the past year: Out of 6945 arrests, 27 were for murder, 103 for shooting without wounding, 91 for malicious shooting and 115 for carrying pistols concealed.

No wonder Allie Young is so bad. Up in his home county 56 warrants have been issued for residents on charges of selling whiskey illegally, and all of it was sold at a religious revival, according to the dispatches. The people of Breathitt can find consolation in this, for with all the mean things of which they have been accused, they have never yet been charged with selling whiskey at a protracted meeting!

President Roosevelt will be invited to come to Kentucky during the army maneuvers at West Point, and it is believed will accept the invitation. The people of Kentucky, irrespective of politics, will extend the president the heartiest welcome possible, and prove to him that while Kentucky is bad in spots, she is not quite as bad as painted.

Governor Durbin, of Indiana, will be a guest of the army officers at West Point pretty soon, and the Democrats will have a chance to kidnap him and hold him for ransom.

Piece of the Original Cable
Found Today.

Was Laid Before the War By Captain
Jack Sleeth, of Paducah.

A piece of the first submarine cable ever laid was found today by Manager A. L. Joynes of the East Tennessee Telephone company, up at "Telegraph Landing," about seven miles above Paducah on the Tennessee river. It is a piece of the cable laid by the late Captain Jack Sleeth, of Paducah, and said by many to have been the first submarine cable ever operated. Captain Sleeth was said to be the real inventor of the cable, and there are various claims in regard to the enterprise, but some of the older citizens say that the original cable, a piece of which Manager Joynes unearthed today, completed telegraphic connection between Evansville, Ind., and Nashville, Tenn., and crossed the Ohio river some where above here, and the Tennessee river from Telegraph landing, where Manager Joynes found, but he did not bring it all to the city with him.

During the war Captain Sleeth's cable was destroyed by soldiers and never rebuilt, but another was built across the Ohio, and Manager Joynes about three years ago found a piece of this also, both of which he retained and values highly as curiosities.

There is a vast difference between those early cables and the modern cable. There is in the old ones one wire, which was covered with an insulation of a substance resembling tar and canvas, and then bound up in a twist of strong wires.

Law and Order Members Decline to Indorse Anybody.

It Is Reported There Is a Chance for
An Independent Ticket in
the Field.

The Citizens Good Government league held a meeting last night at the Broadway M. E. church, and it was decided not to indorse any of the candidates, owing to the fact that men of various political opinions compose the league.

Plans were made for raising funds to carry on the work of the league, and a meeting of the executive committee of the league is called for tonight at the Y. M. C. A. building.

It is reported that one reason the league did not indorse any set of candidates is because it does not desire to be pledged to any who may win in the primary and for whom the members may not want to vote in the final election in November.

Another report is that if the ticket nominated at the Democratic primary next Thursday does not suit the league and the ticket put out later by the Republicans does not suit it, an independent ticket will be placed in the field containing the names of men who do suit the league. In political circles it is claimed the evident intention of some of this class of citizens not to enter the Democratic primary at all is favorable to Yeiser. That the greater portion of the Democrats who will not vote in the primary are men who would feel honor bound to support the nominee and who could not consistently or conscientiously do it if Mayor Yeiser should beat Colonel Potter.

A mass meeting of men interested in good government will be called for to-morrow afternoon at 3 o'clock at the First Baptist church and addresses will be made by Rev. W. C. Sellars, Rev. W. E. Pinkerton and possibly others. The meeting is not called by the Good Government league, and its exact object is not given out, except that it is for those interested in good government.

For over nine years I had been troubled with leucorrhoea. The discharge was yellowish at times but after the menstrual period it would become reddish, acrid and exorbitant. I tried the various systems. I was continually tired while my appetite was poor. My disposition very bad, and my sleep fitful and feverish.

Wine of Cardui was the one remedy which helped me in my distress. I soon found that it relieved the pain and imbued me with new strength and after the use of 22 bottles I was well. No more discharge. No more aches and pains and oh, what relief, only those who have had my experience can appreciate the value of such a fine medicine as Wine of Cardui.

Anna G. Moore
VICE-PRESIDENT, UNITED DAUGHTERS' INDUSTRIAL CLUB.

WINE of CARDUI

Does not this letter convince the most skeptical sufferer that Wine of Cardui will bring her health? It is difficult to imagine a case where there are more discouraging features than this before Mrs. Moore began taking Wine of Cardui. Leucorrhoea is an inflammation of the vagina. It is really decay in the vital organs of womanhood. This inflammation often drives you to nervous excitement. At the menstrual period the continual itching is accompanied by the utmost pain, which lets this trouble run on as Mrs. Moore did is one of misery. But Mrs. Moore did not let it run on. When she had Wine of Cardui brought to her attention she took it and continued the treatment. The case was a chronic one and it took persistent effort to bring a permanent cure. "WE'LL TRY IT"

THAT'S WHAT THE GROCER SAID.

A grocer had heard his customers praising a certain food and one day he said: "We'll try it." "Two years ago," said the grocer's wife, "my little daughter was very low with typhoid fever and we had four different physicians attending her. The last doctor we called said her stomach was as raw as a piece of beef and that all depended on her diet. We failed to find food that she could digest and we were so discouraged. We thought she could not live."

"My husband has a grocery store and said: 'I have a food very highly recommended called Grape Nuts. We'll try that.' So he brought some Grape Nuts home and I fed the child a teaspoonful three times a day in cream and as she began to improve almost immediately. I increased the amount to two teaspoonfuls. In six weeks she looked like another girl, bright eyed rosy cheeked and healthy."

"She was a mere skeleton when we commenced to use Grape Nuts food but it was not long before so many said: 'My! How fine she looks to have been so sick. What causes it?' and I tell them all Grape Nuts surely saved her life. She is now perfectly well and strong and still enjoys Grape Nuts and said to me today, 'O mama write and tell them what Grape Nuts did for me.' Name given by Postum Co., Battle Creek, Mich.

French Lick and West Baden Springs

In the highlands of Indiana—a two hour ride from Louisville there flow wonderful healing waters, that you'd spend hundreds of dollars to enjoy if they were in Europe.

A recent visitor from Philadelphia, who formerly went to Carlsbad every year, said: "I do not see why anyone goes to Europe for medicinal waters. The water is as beneficial, and the scenery and surrounding country, the air and the opportunities for recreation are better; the hotels and all accommodations are much finer at French Lick-West Baden Springs"—and this gentleman is a native of Switzerland.

The splendidly wooded hills with the cool, invigorating air of these highlands where one can enjoy rambles in the depths of the forest, or rides and drives among the numerous bridle paths and roadways, afford pleasure for those who desire rest and quiet; while at the splendid and casinos one can have all the entertainment and pleasures possible at the most fashionable resorts.

ALICE of OLD VINCENNES

By MAURICE THOMPSON

Copyright, 1900, by the BOWEN-MERRILL COMPANY

CHAPTER I.

UNDER THE CHERRY TREE.

U P to the days of Indiana's early statehood, probably as late as 1825, there stood, in what is now the beautiful little city of Vincennes on the Wabash, the decaying remnant of an old and curiously gnarled cherry tree known as the Roussillon tree, le cerisier de Monsieur Roussillon, as the French inhabitants called it, which as long as it lived bore fruit remarkable for richness of flavor and peculiar dark ruby depth of color. The exact spot where this noble old seedling from la belle France flourished, declined and died cannot be certainly pointed out, for in the rapid and happy growth of Vincennes many landmarks once notable, among them le cerisier de Monsieur Roussillon, have been destroyed and the spots where they stood, once familiar to every eye in old Vincennes, are now lost in the pleasant confusion of the new town.

The old, twisted, gum-embossed cherry tree survived every other distinguishing feature of what was once the most picturesque and romantic place in Vincennes. Just north of it stood, in the early French days, a low, rambling cabin surrounded by rude verandas overgrown with grapevines. This was the Roussillon place, the most pretentious home in all the Wabash country. Its owner was Gaspard Roussillon, a successful trader with the Indians. He was rich, for the time and the place, influential to a degree, a man of some education, who had brought with him to the wilderness a bundle of books and a taste for reading.

It is not known just when Vincennes was first founded, but most historians make the probable date very early in the eighteenth century, somewhere between 1710 and 1730. In 1810 the Roussillon cherry tree was thought by a distinguished botanical letter writer to be at least fifty years old, which would make the date of its planting about 1760. Certainly, as shown by the time stained family records upon which this story of ours is based, it was a flourishing and wide topped tree in the early summer of 1778, its branches loaded to drooping with luscious fruit. So low did the dark red clusters hang at one point that a tall young girl standing on the ground easily reached the best ones and made her lips purple with their juice while she ate them.

That was long ago, measured by what has come to pass on the gentle swell of rich country from which Vincennes overlooks the Wabash. The new town flourishes notably and its appearance marks the latest limit of progress. Electric cars in its streets, electric lights in its beautiful homes, the roar of railway trains coming and going in all directions, bicycles whirling hither and thither, the most fashionable styles of equipages from brougham to pony phaeton, make the days of flintlock guns and buckskin trousers seem ages down the past, and yet we are looking back over but a little more than 120 years to see Alice Roussillon standing under a cherry tree and holding high a tempting cluster of fruit, while a short humpbacked youth looks up with longing eyes and vainly reaches for it. The tableau is not merely rustic; it is primitive.

"Jump," the girl is saying in French. "Jump, Jean; jump high!"

"Yes, that was very long ago, in the days when women lightly braved what the strongest men would shrink from now."

Alice Roussillon was tall, lithe, strongly knit, with an almost perfect figure, judging by what the master sculptors carved for the form of Venus, and her face was comely and winning. If not absolutely beautiful; but the time and place were vigorously indicated by her dress, which was of coarse stuff and simply designed. Plainly she was a child of the American wilderness, a daughter of old Vincennes on the Wabash in the time that tried men's souls.

"Jump, Jean!" she cried, her face laughing with a show of cheek dimples, an arching of finely checked brows and the twinkling of large blue gray eyes.

"Jump high and get them!"

While she waved her sun browned hand holding the cherries aloft, the breeze blowing fresh from the southwest tossed her hair so that some loose strands shone like ruffled flames.

The sturdy little humpback did leap with surprising activity, but the treacherous brown hand went higher, so high that the combined altitude of his jump and the reach of his unnaturally long arms was overcome. Again and again he sprang vainly into the air comically, like a long legged, squat bodied frog.

"And you brag of your agility and strength, Jean," she laughingly remarked, "but you can't take cherries when they are offered to you. What a clumsy bungler you are!"

"I can climb and get some," he said, with a hideously happy grin, and immediately embraced the bole of the tree, up which he began scrambling almost as fast as a squirrel.

When he had mounted high enough to be extending a hand for a hold on a crotch Alice grasped his leg near the foot and pulled him down, despite his

clinging and struggling, until his hands clawed in the soft earth at the tree's root, while she held his captive leg almost vertically erect.

It was a show of great strength, but Alice looked quite unconscious of it, laughing merrily, the dimples deepening in her plump cheeks, her forearm, now bared to the elbow, gleaming white and shapely, while its muscles rippled on account of the jerking and kicking of Jean.

All the time she was holding the cherries high in her other hand, shaking them by the twig to which their slender stems attached to them and saying in a sweetly tantalizing tone:

"What makes you climb downward after cherries, Jean? What a foolish fellow you are, indeed, trying to grab cherries out of the ground, as you do potatoes! I'm sure I didn't suppose that you knew so little as that."

Jean, the humpback, was a muscular little deformity and a wonder of good nature. How long he might have kept up the hopeless struggle with the girl's invincible grip would be hard to guess. His release was caused by the approach of a third person, who wore the robe of a Catholic priest and the countenance of a man who had lived and suffered a long time without much loss of physical strength and endurance.

This was Pere Beret, grizzled, short, compact, his face deeply lined, his mouth decidedly askant on account of some lost teeth, and his eyes set deep under gray, shaggy brows. Looking at him when his features were in repose a first impression might not have been favorable; but seeing him smile or hearing him speak changed everything. His voice was sweetness itself, and his smile won you on the instant. Something like a pervasive sorrow always seemed to be close behind his eyes and under his speech; yet he was a genial, sometimes almost jolly, man, very prone to join in the lighter amusements of his people.

"Children, children, my children," he called out as he approached along a little pathway leading up from the direction of the church, "what are you doing now? Bah there, Alice, will you pull Jean's leg off?"

At first they did not hear him, they were so nearly deafened by their own vocal discords.

"Why are you standing on your head with your feet so high in air, Jean?" he added. "It's not a polite attitude in the presence of a young lady. Are you a pig, that you poke your nose in the dirt?"

Alice now turned her bright head and gave Pere Beret a look of frank welcome, which at the same time shot a beam of willful self assertion.

"My daughter, are you trying to help Jean up the tree feet foremost?" the priest added, standing where he had halted just outside of the straggling yard fence.

He had his hands on his hips and was quietly chuckling at the scene before him, as one who, although old, sympathized with the natural and harmless sportiveness of young people and would as lief as not join in a prank or two.

"You see what I'm doing, Father Beret," said Alice. "I am preventing

"Jump high and get them!"

a great damage to you. You will maybe lose a good many cherry pies and dumplings if I let Jean go. He was climbing the tree to pluck the fruit, so I pulled him down, you understand."

"Ta, ta!" exclaimed the good man, shaking his gray head; "we must reason with the child. Let go his leg, daughter, I will vouch for him; eh, Jean?"

Alice released the humpback, then laughed gayly and tossed the cluster of cherries into his hand, whereupon he began munching them voraciously and talking at the same time.

TRACKLAYING.

ON TENNESSEE CENTRAL BETWEEN CLARKSVILLE AND HOPKINSVILLE.

Clarksville, Tenn., Sept. 4.—It is understood here that a construction engine and ten flat cars will be shipped from Nashville over the Louisville and Nashville this week to Oak Grove Ky., on the Clarksville and Gracey branch of the Louisville and Nashville, to begin there the work of track laying for the Tennessee Central railroad between Clarksville and Hopkinsville, Ky. This work will be pushed with all possible dispatch.

AIR WAS GONE.

AND A SLIGHT WRECK RESULTED ON THE ILLINOIS CENTRAL.

There was a small wreck at Dulaney, a station on the east end of the Louisville division of the I. C., yesterday when engine No. 304 rolled down the hill and crashed into engine No. 18 which was standing at the bottom of the grade. Both engines were smashed but greatly damaged. The cause of the accident was the failure of the air to properly work.

TOO LATE NOW.

THE ANNUAL I. O. PIONIO NOT TO BE GIVEN.

From present indications there will be no annual I. O. employees picnic this year. It has now passed the latest date the picnic was ever held by thirty days, and as far as can be learned there is no talk among the men relative to giving the picnic. The accident last year at Dawson placed a damper on picnics and the employees have thought little about one.

To Our Dorothy Dodd Customers and Also Those Who Have Never Worn This Celebrated Shoe.

DEAR FRIENDS:

YOU have the average health and the average strength of a woman of your age. Yet you find yourself unduly fatigued by a day spent upon your feet. This is not a question of your condition but a question of your shoes. It is just here that we can help you.

We have built our famous "Dorothy Dodd" Shoe on an entirely new plan

Not shaping it from guesswork measurements on a wood last, but using the actual bones, muscles and ligaments of the foot as the last for the shoe, working entirely from "X-ray" photographs. The result is the most remarkable shoe you ever dreamed of, and one which makes no day too long for its happy possessor. We can never make you realize its comfort till you try a single pair. Won't you do this today?

Boy Highway Robbers Are Sent to Jail by the Court for Further Orders.

BUD NANCE HEARD.

Will Lewis, alias Jeffries, the negro arrested several days ago for selling Mr. Fletcher Terrell a stolen cow and who has since turned out to be a professional horse thief, was presented in Judge Sanders court today and fined \$25 and costs, and sent to jail for ten days for carrying concealed a pistol, and was held to answer in the sum of \$400 on the other charge. As told yesterday he is wanted in Graves and Hickman counties. Lieutenant Frank Harlan states that Lewis was arrested here four or five days ago with stolen horses in his possession, but the police could never find the owners and he had to be released. Bert Roberts and Jesse Edmunds, the small boys who robbed several other boys at the point of a rifle day before yesterday, were held to answer and sent to jail, and an effort will be made to get them into the reform school.

Frank Bloat, colored, was granted a continuance on a charge of maliciously assaulting Finis Campbell, colored, who was hit in the head with a brick. Campbell has been badly hurt, and the trouble is said to have been over the latter's wife.

Bud Nance was held to answer in the sum of \$300 for shooting Capt. Tom Ryan, Jr., in the thumb, and Kate Hite, for complicity, was held on her own recognizance.

E. H. Wilson was fined \$1 and costs for using insulting language.

A case against H. E. Whitesides for slapping a woman was continued.

The immorality case against Jesse Ward and Minnie Childress was dismissed.

Linton Hobbs was fined \$10 and costs for a breach of the peace.

HAYES' BEECHWOOD EMULSO-HYPO WITH IRON

Makes Fat, Strength, Blood, Bone and Muscle.

If you are tired, broken down, despondent, worn out, pale, losing flesh, have no energy, don't feel like arising in the morning for the day's work, you should take a bottle of this wonderful medicine.

BOGOTA, Miss., March 19, 1903.
Gentlemen: It affords me little pleasure to testify to the wonderful properties of Hayes' Beechwood Emulso-Hypo with Iron as it saved my life when the physicians said that I could not get well. After taking six or eight bottles I weighed 185 pounds. That has been ten years and I am still living in fine health. Wishing you success in its sale, I am yours truly, FRED S. DAWSON.

ABINGTON, Ky., March 19, 1903.
Gentlemen: Having used Hayes' Beechwood Emulso-Hypo with Iron I cannot commend it too highly to others as a tonic flesh builder and to give strength, blood and muscle. It is superior to any preparation of which I have any knowledge. I take pleasure in recommending it. Yours truly, PASTOR M. E. CHURCH, South.

Read what the editor of the Southerner, Okolona, Miss., says:

Shoffner-Hayes Medicine Co., Paducah, Ky. In 1901 my mother commenced taking Hayes' Beechwood Emulso-Hypo with Iron, when the doctors said her lungs were so badly involved that she would not likely be alive but a few weeks. It improved her so rapidly that she was soon in good health for one of her years. I wish you the success you deserve with your Beechwood Emulso.

Suffered six years with a cough that threatened Consumption. Entirely cured by Beechwood Emulso-Hypo.

MAVFIELD, Ky., May 30, 1903.
Shoffner-Hayes Medicine Co., Paducah, Ky. Dear Sirs: I suffered for six years with a cough that threatened Consumption. This spring I took six bottles of Hayes' Beechwood Emulso-Hypo and it cured my cough, and I think I am entirely well. Yours truly, MRS. W. H. STEWART.
